पैंतिसौं वार्षिक साधारण सभामा
अध्यक्षज्यूद्वारा प्रस्तुत संचालक समितिको प्रतिवेदन

आदरणीय शेयरधनीमहानुभावहरु,

नेपाल इन्भेष्टमेण्ट बैंक लिमिटेड (एनआइबिएल) को पैतिंसौं वार्षिक साधारण सभामा शेयरधनी महानुभावहरुलाई स्वागत गर्न पाउँदा हामीलाई अत्यन्त खुसी लागेको छ ।

प्रस्तुत् प्रतिवेदन कम्पनी ऐन, २०६३ एवं अन्य नियमनकारी निकायहरुको निर्देशन अनुरुप रहेको जानकारी गराउन चाहन्छु ।

विगत तीन दशकभन्दा लामो समय देखि यहाँहरुबाट हामीलाई प्राप्त असीम विश्वास र आत्मीय सहयोगका लागि बैंक परिवार यहाँहरु प्रति हार्दिक आभारी छ । यस अवधिमा बैंकले व्यावसायिक उत्कृष्टता र ग्राहक सन्तुष्टिलाई उच्चस्तरमा कायम राख्न सफल भएको छ ।

विगत डेढ वर्ष देखि विश्वव्यापि रुपमा फैलिएको कोरोना महामारीले हरेक मानिसको दैनिक जीवनयापनमा प्रतिकुल असर परेको यहाँहरुलाई विदितै छ । तथापी खोपको प्रयोग पछि दैनिक संक्रमण तथा मृत्यु दरमा कमि आई आर्थिक गतिविधिमा क्रमिक सुधार आएको छ । कल–कारखाना, उद्योग व्यवसाय, आयात–निर्यात, निर्माण व्यवसाय लगायत अन्य आर्थिक गतिविधि सामान्य अवस्थामा उन्मुख भएका छन् तर पनि पर्यटन व्यवसायले भने गति लिन अझै केहि समय लाग्ने देखिन्छ । आर्थिक पुनरुत्थानका लागि विभिन्न देशले राहत कार्यक्रम ल्याएझैं नेपाल सरकार तथा नेपाल राष्ट्र बैंकले पनि उद्योग व्यवसाय संचालन तथा पुनरुत्थानका लागि सुबिधा एवं सहुलियत प्रदान गर्न आवश्यक नीति, निर्देशन तथा सुझावहरु जारी गरेको छ जसको पालना यस बैंकले गर्दै आएको छ । साथसाथै बैंकले ग्राहकवर्गहरुको आवश्यकतालाई उच्च प्राथमिकतामा राखि यस्तो कठिन परिस्थितिमा पनि निरन्तर गुणस्तरीय सेवा प्रदान गर्दै आएको छ ।

बैकिङ्ग क्षेत्रलाई थप मजबुत एवं एकिकृत गर्नको निम्ति नेपाल राष्ट्र बैंकले गाभ्ने वा प्राप्तीको माध्यमबाट बैंक तथा वित्तीय संस्था गच्छयाई कारोवार संचालन गर्न प्रोत्साहन गर्ने नीति लिएको छ । सोही नीतिलाई अनुसरण गर्दै यस बैंकले काठमाडौंको घण्टाघर, दरबारमार्ग स्थित सिटी एक्सप्रेस फाइनान्स कम्पनी लिमिटेडलाई प्राप्ती (acquisition) गरि मिति २०७७ माघ ११ गतेबाट एकिकृत कारोबार शुरु गरेको छ । बैंकले ०.३० स्वाप अनुपात (swap ratio) मुताविक सिटी एक्सप्रेस फाइनान्स कम्पनी लिमिटेडको रु. ४० करोड चुक्ता पूँजीको बदलामा सिटी एक्सप्रेस फाइनान्स कम्पनी लिमिटेडका शेयरधनीहरुलाई रु. १२ करोड बराबरको NIBL को शेयर जारी गरेको छ । चुक्ता पूँजीमा आएको फरक (बचत) रकम रु. २८ करोडलाई यस बैंकले एक्विजिसन रिजर्भ (Acquisition Reserve) मा लेखाङ्कन गरेको छ ।

बैंकहरु ठुला र बलिया हुनु पर्छ भन्ने हाम्रो मान्यता रहेको छ । ठुला र बलिया बैंकहरुले मात्रै दिगो वृद्धि हासिल गर्न सक्ने र नयाँ कार्य क्षेत्रमा व्यवसाय तथा लगानी विस्तार गरि सेवाग्राहीहरुलाई नविनतम प्रविधी तथा न्युन लागत मार्फत प्रभावकारी बैंकिङ्ग सेवा प्रदान गर्दै आफ्ना सरोकारवालाहरुको लागि उचित मूल्य सिर्जना गर्न सक्ने विश्वास हामीले लिएका छौं । विगत केहि वर्ष देखि बैंकहरुको पूँजीमा प्रतिफल (Return on equity) घट्दै गएको छ । केही वर्ष अगाडिसम्म २० प्रतिशतभन्दा माथि रहेको पूँजी प्रतिफल गत वर्ष ११/१२ प्रतिशतमा झरेको छ । यस्तो अवस्थामा पूँजीमा उचित प्रतिफलको लागि ठुलो आकारमा व्यापार विस्तार (Economies of scale) को विकल्प देखिदैन । प्रविधीमा आइरहेको व्यापक परिवर्तन (Digitalization) तथा फिनटेक (Fin-tech) कम्पनीहरुको उदयसंगै परम्परागत बैकिङ्ग व्यवसायको भविष्य नै चुनौतीपुर्ण भएको छ । साथै दीर्घकालिनका तथा अल्पकालिन समस्याहरु हल गर्नका लागि पनि बिग मर्जरको आवश्यकता रहेको छ । नेपाल राष्ट्र बैंकले पनि बैंकहरुको संख्या घटाउन बिग मर्जर (Big merger) को नीतिलाई जोडतोडले अगाडि बढाइरहेको छ । यस स्थितीलाई मध्यनजर गर्दै यस बैंकले मर्जरको लागि नेपालका पुराना स्थापित बैंकहरु मध्ये एक हिमालयन बैंक लिमिटेडसँग मिति २०७८ वैशाख ३० गते मर्जर सम्बन्धी सम्झौतामा हस्ताक्षर गरेको छ र नेपाल राष्ट्र बैंकबाट मिति २०७८ जेष्ठ २० गते सैद्धान्तिक सहमती प्राप्त गरेको छ ।

अब म यहाँहरु समक्ष आर्थिक वर्ष २०७७/७८ को बैंकका गतिविधिहरु, वासलात तथा नाफा नोक्सान हिसाब सहितका अन्य वित्तीय विवरण प्रस्तुत गर्दछु ।

१. विगत वर्ष (आर्थिक वर्ष २०७७/७८) को बैंकको कारोवारको सिंहावलोकनः

आ.व. २०७७/७८ बैंकको लागि चुनौतीपुर्ण रह्यो । कोरोना संक्रमणको रोकथाम गर्नका लागि नेपाल सरकारले विभिन्न समयमा निषेद्याज्ञा लगायतका अन्य प्रतिबन्धका कारण अधिकांश आर्थिक गतिविधिमा अवरोध सिर्जना भयो । जसमा बैंकिङ्ग व्यवसाय अपवाद रहन सक्दैन । आर्थिक वर्षको पहिलो तथा अन्तिम त्रैमासमा गत वर्ष जस्तै कोरोना महामारीको असरलाई न्यूनीकरण गर्न सरकारले बन्दाबन्दी जारी गरेको थियो जसले गर्दा कर्जा विस्तार तथा असुलीमा प्रतिकुल स्थिति सिर्जना भयो ।

गत वर्ष बैंकले रु. ५ अर्ब ५९ करोड खुद ब्याज आम्दानी आर्जन गर्यो जुन अघिल्लो वर्षको रु. ५ अर्ब ७७ करोड भन्दा रु १८ करोड अर्थात् ३.२० प्रतिशतले कम हो । कोरोना महामारीले उद्योग व्यवसाय संचालनमा अवरोध गरेको कारणले समग्र कर्जाको मागमा कमि आई बैंकिङ्ग क्षेत्रमा अधिक तरलताको अवस्था सिर्जना हुन पुग्यो जसले गर्दा ब्याज आम्दानीमा प्रतिकुल असर पर्न गयो भने निक्षेपको लागत उठाउनका साथसाथै उद्योग व्यवसायलाई राहत प्रदान गर्न हेतु न्युन ब्याजदरमा कर्जा लगानी विस्तार गर्दा खुद ब्याज आम्दानी कम हुन गयो ।

त्यसै गरि शुःल्क तथा कमिशन तथा सटही आम्दानीमा पनि प्रतिकुल असर पर्न गयो । अघिल्लो आर्थिक वर्षमा रु. १ अर्ब १९ करोड रहेको खुद शुःल्क तथा कमिशन आम्दानी यस आ.व.मा रु. ८

करोड ५ लाख अर्थात् ६.७३ प्रतिशतले घटी रु. १ अर्ब ११ करोडमा सिमित हुन पुग्यो । कोरोना महामारीको असरलाई न्यूनीकरण गर्न सरकारले जारी गरेको बन्दाबन्दीले व्यवसाय विस्तार तथा लगानीमा अवरोध आएको कारण शुःल्क तथा कमिशन आम्दानी घट्न गएको हो । त्यसैगरि आयात निर्यातमा भएको अवरोधले गर्दा सटही आम्दानीमा समेत ह्रास आयो । फलस्वरुप विदेशी मुद्रा सटही आम्दानी (net trading gain) रु. १२ करोड ४० लाख अर्थात् १४.२२ प्रतिशतले घटेर रु. ७४ करोड ७८ लाख पुगेको छ । अघिल्लो आर्थिक वर्षमा यो आम्दानी रु. ८७ करोड १८ लाख थियो ।

अन्य संचालन आम्दानी भने रु.७० करोड ७३ लाख अर्थात् ३०७.३७ प्रतिशतले बढेर रु. ९३ करोड ७४ लाख पुगेको छ । बैंकको विभिन्न कम्पनीमा रहेको शेयर लगानी विक्रीबाट आर्जित लाभलाई लेखाङ्कन गर्दा अन्य संचालन आम्दानी बढोत्तरी हुन पुगेको हो । अघिल्लो आर्थिक वर्षमा यो आम्दानी रु. २३ करोड १ लाख थियो ।

कर्जा नोक्सानी व्यवस्था तर्फ भने बैंकले आ.व. २०७७/७८ मा खुद रु. ४४ करोड छुट्टचाएको छ । कोभिड १९ महामारीको कारणले बैंकहरुले गरेको कर्जा लगानीमा निहित जोखिम वृद्धि हुन सक्ने संभावनालाई मध्यनजर गर्दै गत आर्थिक वर्षदेखि नेपाल राष्ट्र बैंकले कर्जा नोक्सानी व्यवस्थामा ०.३ प्रतिशत थप गरी कुल १.३ प्रतिशत कायम गर्नु पर्ने प्रावधान ल्याएको छ । जसले गदा कर्जा नोक्सानी व्यवस्थामा अतिरिक्त भार पार्न गएको हो । अघिल्लो आर्थिक वर्षमा कर्जा नोक्सानी व्यवस्थाका लागि खुद रु. १ अर्ब ९९ करोड छुट्टचाएको थियो ।

गत आर्थिक वर्षमा बैंकको कर्मचारी खर्च रु. १ अर्ब ४४ करोड बाट १८.३८ प्रतिशतले वृद्धि भई रु. १ अर्ब ७१ करोड पुगेको छ भने संचालन खर्च (ह्रास कट्टि सहित) रु. १ अर्ब १२ करोड कायम भएको छ । बैंकले आन्तरिक कार्यप्रणाली खर्चमा मितव्ययिता अपनाई निर्धारित लक्ष्य प्राप्त गर्ने रणनीति अवलम्बन गरेको छ ।

फलस्वरुप बैंकको संचालन मुनाफा रु. १ अर्ब ६० करोड अर्थात ४५.६४ प्रतिशतले बढेर रु. ५ अर्ब ११ करोड पुगेको छ । अघिल्लो आर्थिक वर्षमा भने यो रु. ३ अर्ब ५१ करोड थियो । समग्रमा बैंकको खुद मुनाफा रु. १ अर्ब १३ करोड अर्थात् ४६.८६ प्रतिशतले बढेर रु. ३ अर्ब ५५ करोड भएको छ । गत वर्ष बैंकको खुद मुनाफा रु. २ अर्ब ४२ करोड रहेको थियो ।

वासलाततर्फ समीक्षा आर्थिक वर्षमा बैंकको कूल सम्पत्ति रु. २४ अर्ब ९० करोड अर्थात् १२.२७ प्रतिशतले वृद्धि भई रु. २ खर्ब २७ अर्ब पुगेको छ । अघिल्लो वर्ष कूल सम्पत्ति रु. २ खर्ब ३ अर्ब थियो । त्यस्तैगरी, बैंकको कूल निक्षेप र कूल कर्जा क्रमशः ६.२६ प्रतिशत र १५.६५ प्रतिशतले वृद्धि हुँदै रु. १ खर्ब ७९ अर्ब र रु. १ खर्ब ६१ अर्ब कायम भएको छ भने कूल लगानी ३४.५२ प्रतिशतले वृद्धि भई रु. ३५ अर्ब ४२ करोड कायम भएको छ ।

समीक्षा आर्थिक वर्षमा बैंकको निष्क्रिय कर्जा (NPA) २.४६ प्रतिशत रहेको छ । आउँदा वर्षहरुमा निष्क्रिय कर्जालाई घटाएर न्यूनतम् स्तरमा लैजान हामी निरन्तर प्रयासरत रहनेछौं ।

घ. मानव संसाधन :

ग्राहकहरुलाई उत्कृष्ट सेवा प्रदान गर्न तथा बैंकको उद्देश्य हासिल गर्न मानव संसाधनको प्रभावकारी व्यवस्थापन पूर्वशर्त हो भन्ने कुरा हामीले राम्ररी मनन् गरेका छौं । उत्कृष्ट, सक्षम तथा राम्रा तालिम प्राप्त कर्मचारीहरु बैंकका अमूल्य सम्पत्ति हुन् । कर्मचारीहरुको क्षमता तथा बौद्धिकताले संगठनको प्रभावकारितामा प्रभाव पार्ने हुँदा राम्रा तथा सक्षम मानव संसाधनको निर्माणका लागि बैंकले सोही अनुसारको आवश्यक लगानी पनि गर्दै आईरहेको छ ।

हामीसँग अहिले बैंकको मूल्य, मान्यता र अभियान प्रति प्रतिबद्ध १,५०६ जना कर्मचारीहरु छन्, जसमध्ये ४७ प्रतिशत महिला छन् । उनीहरुले हाम्रा ग्राहकहरुलाई तत्काल विश्वसनीय सेवा दिने लक्ष्यका साथ सुमधुर वातावरणमा कार्य सम्पादन गरिरहेका छन् । संस्थामा १० वर्षभन्दा लामो अवधिसम्म सेवा गर्ने कर्मचारीको संख्या ६७८ पुगिसकेको छ । हामीले विश्वासिलो र सहयोगी वातावरणमा काम गर्ने संस्कारको विकास गरेका छौं ।

तीव्र बजार प्रतिस्पर्धासँग गति कायम गर्दै व्यावसायिक वृद्धि हासिल गर्न निरन्तर अध्ययन र क्षमता वृद्धि महत्वपूर्ण हुन्छ । समीक्षा वर्षमा विभिन्न कर्मचारीहरुले पेशागत विकास अवसरका लागि जम्मा ७३ वटा आन्तरिक तालिम तथा गोष्ठीमा भाग लिएका थिए । जसमा नेपाल राष्ट्र बैंकको निर्देशन, सम्पति शुद्धीकरण/आतंककारी क्रियाकलापमा वित्तीय लगानी सम्बन्धी तालिम, NFRS / BASEL सम्बन्धित तालिम, प्रतीतपत्र, कोरोनामा ग्राहकसँगको सम्बन्ध व्यवस्थापन, सुरक्षा जागरुकता, SME Lending, नेतृत्व तथा व्यक्तित्व विकास, बैंकिङ्ग अपरेसन्स् प्रर्बधन, परिचालन जोखिम प्रबन्धन, बैंकिङ्ग क्षेत्रसँग सम्बन्धित चुनौती तथा आयकर सम्बन्धी तालिम प्रमुख हुन् । साथै व्यक्तित्व विकासका लागि Art of Living का विभिन्न कार्यक्रमहरुको पनि आयोजना गरिएको थियो ।

मानव पूँजीको गुणस्तर सुधार्ने कुनै पनि लगानी अन्ततः संस्थाको वृद्धि र शेयरधनीहरुको मूल्य बढाउने कुरामा हामी विश्वास गर्दछौं । नेपाल राष्ट्र बैंकले अघिल्लो वर्षको कुल तलब भत्ता खर्चको ३ प्रतिशतले हुने रकम कर्मचारीको तालिम तथा वृत्ति विकासमा खर्च गर्नुपर्ने व्यवस्था गरे बमोजिम बैंकले कर्मचारीको तालिममा यस वर्षमा रु. २८ लाख खर्च गरेको छ । गत वर्ष बैंकका कुल ४८७ कर्मचारी कोरोना माहामारीबाट संक्रमण भएका थिए । कोरोना जोखिमको बाबजुद बैंकका कर्मचारीहरुले आवश्यक स्वास्थ्य सुरक्षा अपनाई ग्राहकहरुलाई निरन्तर सेवा दिदै आइरहेका छन् ।

We are independent of the Group in accordance with the Institute of Chartered Accountant of Nepal's code of ethics for professional accountants (ICAN Code) together with the ethical requirements that are relevant to our audit of the financial statements in Nepal and we have fulfilled our ethical responsibilities in accordance with these requirements and the ICAN Code. We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period and include most significant assessed risks of material misstatement (whether of not due to fraud) identified including those which has greatest effect on overall audit strategy, allocation of resources in the audit and directing effort of the engagement team. We summaries below key audit matters, in decreasing order of audit significance, in arriving at our audit opinion above, together with our key audit procedures to address those matters and, as required for public interest entities, our results from those procedures. These matters were addressed in the context of our audit of the consolidated financial statements as whole, and in forming our opinion thereon, and we did not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How the Key Audit Matter was Addressed
a. Impairment of Loans and Advances to Customers including Interest Income on Recognized Non-Performing Loans and Advances	
Total Loans and Advances to Customers: NPR 163,608 million as on July 15 2021 (NPR 141,451 as on July 15 2020) Total Impairment: NPR 6,791 million as on July 15 2021 (NPR 6,368 as on July 15 2020) Total Impairment Charges: NPR 439 million in FY 2020-21 (NPR 1,997 million in FY 2019-20) Total Accrued Interest Income is NPR 1,377 million in FY 2020-21 (NPR 978 million in FY 2019-20) out of Total Interest Income of NPR 13,712 million in FY 2020-21 (NPR 15,201 million in FY 2019-20)	
Allowances for impairment of loans and advances to customers have been made based on incurred loss model, giving impact of COVID-19 and Nepal Rastra Bank (NRB) regulations, as applicable.	We planned and tested the operating effectiveness of key controls established by the Bank to identify loss events and for determining the extent of provisioning required against non-performing loans and advances to customers.

The Bank is required to apply its judgment and estimation to determine allowances for impairment. In addition, assessment of allowances for impairment is important as carve out provides for higher of the incurred loss model or NRB's directive. The carrying value of the loans and advances to the customers can be materially misstating if the Bank's judgment and estimation are inappropriate. In addition to above, interest income on loans and advances to customers has been recognized on accrual basis calculated by the Bank's core banking system and following the interest income recognition Guidelines 2019 issued by NRB. Recognition of interest income on non-performing loans and advances involves estimation and judgments on calculating net realizable value of loans and advances. Considering the significance of the above matter to the financial statements, we have identified this as a key audit matter for the current year audit.	The testing of controls include testing of controls over correct identification and classification of non-performing loans and advances to customers on time-based criteria; control over statistical models used to calculate the incurred loss in accordance with incurred loss model; control over monitoring of loans and advances to customers with higher risk default; control over accurate computation and recording of provisions; and control over the governance and approval process related to provisions including continuous reassessment by the Bank's Management. We selected a sample of loans and advances to customers, checked installments of repayments and tested classification of non-performing loans and advances to customers based on the number of days overdue; evaluated the Bank's assessment for classification of loans and advances to customers as performing and non-performing based on repayment pattern, documentation, inspection and through discussion with the Bank's Management; assessment of control over mortgage value of loans and advances to customers. We selected sample of loans and advances to customers and independently performed and reassessed whether there was need to classify loans and advances to customers as non-performing and compared our outcome to that prepared by the Bank and challenged various assumptions and judgments which were used by the Bank's Management. We assessed the appropriateness and adequacy of disclosures against the relevant accounting standards and NRB requirements relating to allowances for impairment on loans and advances and interest recognition, and considered to be acceptable.
b. Information Technology System and Control impacting Financial Reporting in relation to the Bank	
The Bank's Information Technology environment is complex and involves a large number of independent and inter-dependent Information technology systems used in the Bank's operations for processing and recording a large volume of transactions at numerous locations. As a result, there is a high degree of reliance and dependency on such Information technology systems for the Bank's financial reporting process. Appropriate Information technology, general controls and application controls are required to ensure that such Information technology systems are able to process the data, as required, completely, accurately and consistently for reliable financial reporting. The accuracy and reliability of the financial reporting process depends on the information technology systems and the related control environment, including information technology general controls over user access management and change management across applications, networks, database, and operating systems; and Information technology automated application controls. Due to the importance of the impact of the information technology systems and related control environment on the Bank's financial reporting process, we have identified testing of such information technology systems and related control environment as a key audit matter for the current year audit.	In assessing the integrity of the information technology systems, we involved our information technology experts to obtain an understanding of the information technology infrastructure and systems relevant to the Bank's financial reporting process for evaluation and testing of information technology general controls and Information technology automated controls existing in such information technology systems. Access rights were tested over applications, operating systems, networks, and databases, which are relied upon for financial reporting. We also assessed the operating effectiveness of controls over granting, removal and periodical review of access rights. We further tested segregation of duties, including preventive controls to ensure that access to change applications; the operating system or databases in the production environment were granted only to authorized personnel. Other areas that were assessed under the information technology control environment, included password policies, security configurations, and controls around change management. We also evaluated the design and tested the operating effectiveness of key automated controls within various business processes. This included testing the integrity of system interfaces, the completeness and accuracy of data feeds and automated calculations, and considered to be acceptable.

Information Other than the Consolidated Financial Statement and Auditors' Report Thereon

The Bank's Management is responsible for the other information. The other information comprises the information included in the Management Letter, the Board of Directors and Chairman's Statement but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work, we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Other Matters

We did not audit the financial statements and other financial information of subsidiary NIBL Ace Capital Limited, whose financial statements reflect total assets of NPR 2,817 million and net assets of NRP 457 million as at Ashad 31, 2078 (corresponding to July 15, 2021) and total comprehensive income of NRP 148 million and net cash inflows of NRP 645 million for the year then ended. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the financial statements in so far as it relates to the accounts and disclosures included in respect of this subsidiary, are based solely on the report of other auditors.

Our opinion on the consolidated financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Nepal Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibility for Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Nepal Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Nepal Standards on Auditing, we exercised professional judgment and maintained professional skepticism throughout the audit. We also:

- Identified and assessed the risk of material misstatement of the consolidated financial statements, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion of the effectiveness of the Bank and its subsidiary's internal control.

- Evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Concluded on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cause significant doubt on the Bank's and its subsidiary's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosure in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank and its subsidiary to cease to continue as a going concern.
- Evaluated the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

We also provided those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicated with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

We have obtained information and explanations asked for which, to best of our knowledge and belief, were necessary for the purpose of our audit. In our opinion, consolidated statements of financial position, consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows, have been prepared in accordance with the procedure and format prescribed by Nepal Rastra Bank and are in agreement with the books of account maintained by the Bank and its subsidiaries included in the Group. Proper books and records have been kept as per law, so far as it appears, from our examination of those books and records of the Bank and the reports of the other auditors.

In our opinion, so far as it appears from our examination of the books, the Bank has maintained adequate capital funds and adequate provision for possible impairment of assets in accordance with the directives of Nepal Rastra Bank.

To the best of our information and according to explanations given to us and so far as it appears from our examination of the books of account of the Bank and the audit reports issued by other auditors necessary for the purpose of our audit, we have not come across cases where Board of Directors or any employees of the Bank and its subsidiaries have acted contrary to the provisions of law or committed any misappropriation relating to the accounts or caused loss or damage to the Group and violated any directives of Nepal Rastra Bank or acted in a manner to jeopardize the interest and security of the Bank, its depositors and investors.

Nepal Investment Bank Limited Group
Notes to the Consolidated Financial Statements
For the year ended Ashad 31, 2078 (15 July 2021)

1. About Nepal Investment Bank Limited

Nepal Investment Bank Limited (NIBL) was established in 1986 as Nepal Indosuez Bank, a joint venture between Nepalese and French partners. The French partner Credit Agricole Indosuez, one of the largest global banking group holding the equity stake of 50%, decided to divest its investment in the bank. Consequently, in April 2002, Nepalese group of companies comprising of bankers, professional, industrialists and businessman acquired the 50% stake of divested by Credit Agricole Indosuez. The name of the bank was then changed to Nepal Investment Bank Limited, after completing all legal and regulatory formalities.

NIBL is licenced by Nepal Rastra Bank (the central bank of Nepal) as a commercial bank under Class "A" financial institution category. The registered office of the Bank is located at Durbar Marg, Kathmandu Nepal. The Bank's ordinary shares are listed in the Nepal Stock Exchange for public trading.NIBL is licenced to operate as a commercial bank under the Banking and Financial Institution Act. It provides wide arrays of banking services within the limits and parameters set by legislations and regulatory framework.

NIBL is the parent company with its subsidiary namely NIBL Ace Capital Limited.

NIBL Ace capital Limited is a 100% subsidiary of the bank and its business include merchant banking, depository services, asset-management of mutual fund units, portfolio management and corporate advisory.

2. Basis of preparation

2.1 Statement of Compliance

The consolidated financial statements of the group and the separate financial statements of NIBL have been prepared in accordance with NFRSs as issued by the ASB-N and as endorsed by the Institute of Chartered Accountants of Nepal and Nepal Rastra Bank directives.

2.2 Reporting period and approval of financial statements

The Bank follows the Nepalese financial year based on the Nepalese calendar.

The corresponding dates for the English calendar are as follows:

Relevant Financial Statement	Nepalese Calendar Date/Period	English Calendar Date/Period
Comparative SFP Date	31 Ashad 2077	15 July 2020
Comparative reporting period	1 Shrawan 2076 – 31 Ashad 2077	17 July 2019 – 15 July 2020
Reporting SFP Date	31 Ashad 2078	15 July 2021
Reporting period	1 Shrawan 2077– 31 Ashad 2078	16 July 2020 – 15 July 2021

2.3. Functional and presentation currency

The functional currency of the bank is Nepalese Rupees (NPR), which is also the presentation currency of the consolidated financial statements of the group.

2.4. Use of Estimates, assumptions and judgements

The preparation of financial information requires the use of estimates and judgements about future conditions. In view of the inherent uncertainties and the high level of subjectivity involved in the recognition or measurement of items listed below, it is possible that the outcomes in the next financial year could differ from those on which management's estimates are based, resulting in materially different conclusions from those reached by management for the purposes of this financial statements.

Management's selection of the accounting policies, which contain critical estimates and judgements, is listed below; it reflects the materiality of the items to which the policies are applied, the high degree of judgement and estimation uncertainty involved:

- Impairment of loans and advances
- Valuation of financial instruments
- Provisions
- Estimation of useful lives of property and equipment and intangible assets

2.5. Changes in accounting policies

NFRS requires the company to adopt accounting policies that are most appropriate to the company's circumstances.The bank has been adopting accounting policies to ensure compliance with NFRS. Specific accounting policies have been included in the section 3 of the notes for each items of financial statements which requires disclosures of accounting policies or changes in accounting policies. Effect and nature of the changes, if any, have been disclosed wherever applicable.

2.6. New standards issued but not yet effective

NFRS 9 'Financial Instruments'

Classification and measurement: The classification and measurement of financial assets will depend on how these are managed (the entity's business model) and their contractual cash flow characteristics. These factors determine whether the financial assets are measured at amortised cost, fair value through other comprehensive income ('FVtOCI') or fair value through profit or loss ('FVtPL'). In many instances, the classification and

measurement outcomes will be similar to NAS 39, although differences will arise. The combined effect of the application of the business model and the contractual cash flow characteristics tests may result in some differences in the population of financial assets measured at amortised cost or fair value compared with NAS 39. The classification of financial liabilities is essentially unchanged. For certain liabilities measured at fair value, gains or losses relating to changes in the entity's own credit risk are to be included in other comprehensive income.

Impairment: The impairment requirements apply to financial assets measured at amortised cost and FVOCI, and lease receivables and certain loan commitments and financial guarantee contracts. At initial recognition, allowance (or provision in the case of commitments and guarantees) is required for expected credit losses ('ECL') resulting from default events that are possible within the next 12 months ('12-month ECL'). In the event of a significant increase in credit risk, allowance (or provision) is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL').

- Financial assets where 12-month ECL is recognised are considered to be 'stage 1';
- Financial assets which are considered to have experienced a significant increase in credit risk are in 'stage 2'; and
- Financial assets for which there is objective evidence of impairment so are considered to be in default or otherwise credit impaired are in 'stage 3'.

The assessment of whether credit risk has increased significantly since initial recognition is performed for each reporting period by considering the change in the risk of default occurring over the remaining life of the financial instrument, rather than by considering an increase in ECL. The assessment of credit risk and the estimation of ECL are required to be unbiased and probability-weighted and should incorporate all available information which is relevant to the assessment, including information about past events, current conditions and reasonable and supportable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL should take into account the time value of money. As a result, the recognition and measurement of impairment is intended to be more forward-looking than under NAS 39 and the resulting impairment charge will tend to be more volatile. It will also tend to result in an increase in the total level of impairment allowances, since all financial assets will be assessed for at least 12-month ECL and the population of financial assets to which lifetime ECL applies is likely to be larger than the population for which there is objective evidence of impairment in accordance with NAS 39.

2.7. New Standards and Interpretations not adopted

New standards on revenue recognition, financial instrument accounting, leasing and insurance accounting have been issued by IASB which could represent significant changes to accounting requirements in the future.

a. IFRS 9 'Financial Instruments'

In July 2014, the IASB issued IFRS 9 'Financial Instruments', which is the comprehensive standard to replace IAS 39 'Financial Instruments: Recognition and Measurement', and includes requirements for classification and measurement of

financial assets and liabilities, impairment of financial assets and hedge accounting. (Effects and implications have been discussed above in 2.6).

b. IFRS 15 'Revenue from Contracts with Customers'

In May 2014, the IASB issued IFRS 15 'Revenue from Contracts with Customers'. The original effective date of IFRS 15 has been delayed by one year and the standard is now effective for annual periods beginning on or after 1 January 2018 with early application permitted. IFRS 15 provides a principles-based approach for revenue recognition, and introduces the concept of recognising revenue for performance obligations as they are satisfied. The standard should be applied retrospectively, with certain practical expedients available. The bank has assessed the impact of IFRS 15 and it expects that the standard will have no significant effect, when applied, on the financial statements of the group and NIBL.

c. IFRS 16 'Leases'

In January 2016, the IASB issued IFRS 16 'Leases' with an effective date of annual periods beginning on or after 1 January 2019. IFRS 16 results in lessees accounting for most leases within the scope of the standard in a manner similar to the way in which finance leases are currently accounted for under IAS 17 'Leases'. Lessees will recognise a 'right of use' asset and a corresponding financial liability on the balance sheet. The asset will be amortised over the length of the lease and the financial liability measured at amortised cost. Lessor accounting remains substantially the same as in IAS 17. The bank is currently assessing the impact of IFRS 16 and it is not practicable to quantify the effect as at the date of the publication of these financial statements.

2.8. Previous Year's Figures

Previous year's figures have been regrouped / reclassified wherever necessary to make them comparable with the current year's classification / disclosure.

2.9. Discounting

When the realisation of assets and settlement of obligation is for more than one year, the Bank considers the discounting of such assets and liabilities where the impact is material. Various internal and external factors have been considered for determining the discount rate to be applied to the cash flows of the bank. For financial instruments recognised at amortised costs that meet the 'SPPI' criteria, i.e. solely for the purpose of collecting principal and interest, the effective interest rate is considered to cover for the credit risk and time value of money, therefore further discounting is not made. The fair value of debt securities shall be determined by discounting by the future cash flows by the coupon interest rate.

2.10. Going concern

The financial statements are prepared on a going concern basis, as the management of the Bank is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the Board of Directors is not aware of any material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern. Therefore, the Financial Statements continue to be prepared on the going concern basis. In making this assessment, the Board of directors have considered a wide range

of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources.

2.11. Materiality

The Bank for the preparation of financial statements determines materiality based on the nature or magnitude, or both. Materiality is a pervasive constraint in financial reporting because it is pertinent to all of the qualitative characteristics.

2.12. Approval of financial statements

The accompanied financial statements have been approved and authorised for issue by the Board of Directors in its meeting held on 3rd October 2021.

3. Significant accounting policies

3.1. Basis of measurement

The financial information has been prepared under the historical cost convention, fair value measurement of financial assets and liabilities wherever the standard requires or provides option for such measurements.

3.2. Basis of consolidation

The group controls and consequently consolidates an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Control is initially assessed based on consideration of all facts and circumstances, and is subsequently reassessed when there are significant changes to the initial setup. Where an entity is governed by voting rights, the group would consolidate when it holds, directly or indirectly, the necessary voting rights to pass resolutions by the governing body. In all other cases, the assessment of control is more complex and requires judgement of other factors, including having exposure to variability of returns, power over the relevant activities or holding the power as agent or principal. The cost of an acquisition is measured at the fair value of the consideration, including contingent consideration, given at the date of exchange. Acquisition-related costs are recognised as an expense in the income statement in the period in which they are incurred. The acquired identifiable assets, liabilities and contingent liabilities are generally measured at their fair values at the date of acquisition. Goodwill is measured as the excess of the aggregate of the consideration transferred, the amount of non-controlling interest and the fair value of the group's previously held equity interest, if any, over the net of the amounts of the identifiable assets acquired and the liabilities assumed.

a. **Non-controlling interest (NCI):** The amount of non-controlling interest is measured either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. For acquisitions achieved in stages, the previously held equity interest is re-measured at the acquisition-date fair value with the resulting gain or loss recognised in the income statement.

b. **Subsidiaries - Carve out not Taken** Subsidiary of Bank, NIBL Ace Capital Limited, Subsidiary of Bank, NIBL Ace Capital Limited, has applied NFRS in preparation

of their financial statements, which have been consolidated in NIBL Group consolidated financial statements under NFRS.The Financial Statements of the Bank's Subsidiaries are prepared for the same reporting period as per the Bank, using consistent accounting policies.

Carve out Taken - Associates

National Microfinance BittiyaSanstha Limited, M Nepal Ltdand FlexitermPrivate Limited the group's associate companies have not prepared its financial statements in accordance with NFRS however the Group has applied equity accounting for recognition and presentation of its associates. The Bank in its standalone financial statements has recognised its investment in associates at cost under NAS 27.

c. Loss of Control – Upon the loss of control, the Bank derecognizes the assets and liabilities of the Subsidiary, any non-controlling interests and other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognized in the Statement of Profit or loss. If the Bank retains any interest in the previous Subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently it is accounted for as equity-accounted investee or in accordance with the Bank's accounting policy for financial instruments depending on the level of influence retained.

d. Special Purpose Entity (SPE) – The bank does not have any investment in special purpose entities.

e. All intra-group transactions are eliminated on consolidation.
Intra group balances and transactions, any unrealized income and expenses arising from intra group transactions, are eliminating in preparing the consolidated financial statements. Unrealized gains/losses arising from transactions with equity accounted investees are eliminated against the investments to the extent of group interest of investee.

3.3. Cash and cash Equivalent

Cash and cash equivalents include highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Such investments and/or placements are normally those with less than three months' maturity from the date of acquisition. Cash and cash equivalent are classified as financial assets and treated accordingly.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash and non-mandatory balances with central banks and amounts due from banks with a maturity of less than three months. Cash and cash equivalent are carried at amortized cost in the Statement of Financial Position.

3.4. Financial Instruments: Financial Assets and Financial Liabilities

Financial asset is any asset that is:

(a) cash
(b) an equity instrument of another entity;

(c) a contractual right:
  i) to receive cash or another financial asset from another entity; or
  ii) to exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity; or

(d) a contract that will or may be settled in the entity's own equity instruments and is:
  (i) a non-derivative for which the entity is or may be obliged to receive a variable number of the entity's own equity instruments; or
  (ii)a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments.

Financial liability is any liability that is:

a) a) contractual obligation:
  (i) to deliver cash or another financial asset to another entity; or
  (ii) to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the entity; or

(b) a contract that will or may be settled in the entity's own equity instruments and is:
  (i) a non-derivative for which the entity is or may be obliged to deliver a variable number of the entity's own equity instruments; or
  (ii) a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments.

3.4.1. Recognition

Bank / group recognises financial asset or financial liability in its statement of financial position when, and only when, it becomes a party to the contractual provisions of the instrument.

3.4.2. Classification

Financial assets are classified under three categories, namely,

- Fair Value through Profit or Loss,
- Fair Value Though Other Comprehensive Income
- At Amortised Cost

Financial liabilities are classified under two categories, namely,

- Fair Value through Profit or Loss,
- Held at amortised cost

3.4.3. Measurement

At initial recognition, the bank measures financial instruments (financial assets and liabilities) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement – financial assets

- Financial assets other than recognised at amortised cost are measured and reported at fair value.
- Assets classified as held at amortised costs are carried at amortised costs using effective interest rate.

Subsequent measurement – financial liabilities

- Financial liabilities carried at fair value are measured and reported at fair value
- Other financial liabilities are carried at amortised cost.

Gain or loss

Gain or loss arising from changes in the fair value of a financial asset or financial liability are recognised, as follows.

- A gain or loss on a financial asset or financial liability classified as at fair value through profit or loss shall be recognised in profit or loss.
- A gain or loss on a financial asset or financial liability classified as at fair value through OCI shall be recognised in other comprehensive income.

3.4.4. De-recognition

Bank derecognises financial assets when, and only when:

- The contractual rights to the cash flows from the financial asset expire; or
- It transfers the financial asset and the transfer qualifies for de-recognition.

Bank removes financial liabilities (or a part of a financial liabilities) from its statement of financial position when, and only when, it is extinguished: i.e. when the obligation specified in the contract is discharged or cancelled or expires.

3.4.5. Determination of fair value

Fair values of financial assets and liabilities are determined according to the following hierarchy:

- Level 1 – valuation technique using quoted market price: financial instruments with quoted prices for identical instruments in active markets that the group can access at the measurement date.
- Level 2 – valuation technique using observable inputs: financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable. For the listed securities where the bank holds promoter shares which are priced and traded differently in the market than ordinary shares, the bank has considered the valuation of promoters shares at 50% of the price of the ordinary shares. For quoted mutual funds which are yet to be traded in NEPSE, published NAV has been considered as fair value.
- Level 3 – valuation technique with significant unobservable inputs: financial instruments valued using valuation techniques where one or more significant inputs are unobservable, where market prices are not available, then the bank considers the carrying value and future cash flows from the financial instruments.

3.4.6. Impairment

Impairment of financial assets held at amortised costs
Impairment of financial assets is considered when the carrying values of the assets are more than the recoverable amount from the assets. Impairment is tested for all financial assets except those measured at fair value.

Impairment of loans and advances to customers and bank and financial institutions
Losses for impaired loans are recognised promptly when there is objective evidence that impairment of a loan or portfolio of loans has occurred. Impairment allowances that are calculated on individual loans or on groups of loans assessed collectively are recorded as charges to the profit or loss and are recorded against the carrying amount of impaired loans in the statement of financial position. Losses, which may arise from future events are not recognised.

The process of impairment followed by the bank under NAS 39 is as under

- Bank individually assesses for impairment of loans and advances for all loans that are overdue.
- When testing for impairment if there is no indication of impairments such loans and advances are considered for collective assessment. If there is an indication of impairment then impairment is charged to loans and advances on individual basis.
- If the loans and advances are not overdue and do not indicate any trigger events that would require detailed impairment testing such loans and advances are categorised for collective assessment of impairment.
- When triggers are identified for individually significant loans and advances they are tested for impairment.
- Impairment is specifically (individually) assessed and charged for overdue loans and advances.
- Collective assessment is based on the risk assessment, risk categories and risk classification of loans and advances.

Individually assessed loans and advances

The criteria used to make this assessment include:

- known cash flow difficulties experienced by the borrower;
- contractual payments of either principal or interest being past due for more than 90 days;
- the probability that the borrower will enter bankruptcy or other financial realisation;
- a concession granted to the borrower for economic or legal reasons relating to the borrower's financial difficulty that results in forgiveness or postponement of principal, interest or fees, where the concession is not insignificant; and
- There has been deterioration in the financial condition or outlook of the borrower such that its ability to repay is considered doubtful. For loans where objective evidence of impairment exists, impairment losses are determined considering the following factors:
  - the group's aggregate exposure to the customer;
  - the viability of the customer's business model and their capacity to trade

successfully out of financial difficulties and generate sufficient cash flow to service debt obligations;
  - the amount and timing of expected receipts and recoveries;
  - the likely dividend available on liquidation or bankruptcy;
  - the extent of other creditors' commitments ranking ahead of, or paripassu with, the group and the likelihood of other creditors continuing to support the company;
  - the complexity of determining the aggregate amount and ranking of all creditor claims and the extent to which legal and insurance uncertainties are evident;
- the realisable value of security (or other credit mitigants) and likelihood of successful repossession;
- the likely costs of obtaining and selling collateral as part of foreclosure;
- the ability of the borrower to obtain, and make payments in, the currency of the loan if not denominated in local currency; and
- when available, the secondary market price of the debt.

The determination of the realisable value of security is based on the market value at the time the impairment assessment is performed. The value is not adjusted for expected future changes in market prices, though adjustments are made to reflect local conditions such as forced sale discounts. Impairment losses are calculated by discounting the expected future cash flows of a loan, which includes expected future receipts of contractual interest, at the loan's original effective interest rate and comparing the resultant present value with the loan's current carrying amount. The impairment allowances on individually significant accounts are reviewed at least quarterly and more regularly when circumstances require.

Collectively assessed loans and advances

Impairment is assessed collectively to cover losses, which have been incurred but have not yet been identified on loans subject to individual assessment or for homogeneous groups of loans that are not considered individually significant. All individually significant loans and advances and investment securities are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and advances that are not individually significant are collectively assessed for impairment by grouping together loans and advances with similar risk characteristics.

Impairment of loans and advances portfolios are based on the judgments in past experience of portfolio behaviour. In assessing collective impairment, the Bank uses historical trends of the probability of default by analyzing data of last twenty quarters, the timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends. Default rates, loss rates and the expected timing of future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate. When information becomes available which identifies losses on individual loans within the group, those loans are removed from the group and assessed individually.

The entire loan portfolio has been segregated into eight portfolio categories considering similar characterises, risk profile and other similar attributes of the loans. The collective

impairment allowance is determined using statistical methods by calculating probability of default (PD) and Loss given Default (LGD) for each portfolio or homogeneous groups of loans not considered individually significant and not specifically impaired.

Reversals of impairment

If the amount of an impairment loss decreases in a subsequent period, and the decrease can be related objectively to an event occurring after the impairment was recognised, the excess is written back by reducing the loan impairment allowance account accordingly. The write-back is recognised in the profit and loss statement.

Write-off of loans and advances

Loans (and the related impairment allowance accounts) are normally written off, either partially or in full, when there is no realistic prospect of recovery. Where loans are secured, this is generally after receipt of any proceeds from the realisation of security. In circumstances where the net realisable value of any collateral has been determined and there is no reasonable expectation of further recovery, write-off may be earlier.

Carve out – Loans and Advances Impairment

The regulators have provided a mandatory carve-out for charging impairment of loans and advances. The carve-out provides that the bank needs to assess its impairment of loans and advances under NFRS and calculate impairment under rule based impairment model of Directive 2 of Nepal Rastra Bank. Then higher impairment of the two methods needs to be recognised in the financial statements, with additional disclosure of the loans and advances had the other methods been applied for comparison purpose. The bank for the current financial year has assessed the impairment under NFRS impairment model and under NRB Directives. Since the impairments under NRB directives are more than under NFRS, the bank has recognised impairment calculated under NRB directives. Following table below depicts the calculation of impairment allowance as per NFRS and as per NRB Directives:

Loans and advances to BF/Is	As per NFRS FY 2077-78	As per NRB FY 2077-78	As per NFRS FY 2076-77	As per NRB FY 2076-77

3.4.7. Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously ('the offset criteria').

3.5. Trading Assets

Financial assets are classified as trading assets (held for trading) if they have been acquired principally for the purpose of selling in the near term, or form part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent pattern of short- term profit-taking. They are recognised on trade date, when the group enters into contractual arrangements with counterparties, and are normally derecognised when sold. They are initially measured at fair value, with transaction costs taken to the income statement. Subsequent changes in their fair values are recognised in the income statement in 'Net trading income'.

3.6. Derivative Assets and derivative liabilities

Derivatives are financial instruments that derive their value from the price of underlying items such as equities, bonds, interest rates, foreign exchange, credit spreads, commodities and equity or other indices. Derivatives are initially recognised, and are subsequently re-measured, at fair value. Fair values of derivatives are obtained either from quoted market prices or by using valuation techniques.

Embedded derivatives are bifurcated from the host contract when their economic characteristics and risks are not clearly and closely related to those of the host non-derivative contract, their contractual terms would otherwise meet the definition of a stand-alone derivative and the combined contract is not held for trading or designated at

fair value. The bifurcated embedded derivatives are measured at fair value with changes therein recognised in the income statement.

3.7. Property and equipment

Property and Equipment except freehold land are stated at historical cost, or fair value at the date of transition to NFRSs ('deemed cost'), less impairment losses and depreciation over their estimated useful lives. Freehold land are periodically assessed for their fair value and reported at revalued amount. The excess of fair value over the cost of freehold land is recognized in equity as revaluation reserve.

Depreciation is made on the following basis

Asset Class	Useful life / years (%)
Land	Not depreciated
Building	50 (2%)
Leasehold Properties	6.67 (15%)
Computer & accessories	5 (20%)
Vehicles	6.67 (15%)
Furniture	6.67 (15%)
Machinery	6.67 (15%)
Equipment & others	6.67 (15%)

Property and equipment is subject to an impairment review if their carrying amount may not be recoverable. Leasehold properties are depreciated over 6.67 years or over the remaining useful life, whichever is lower.Depreciation on property and equipment is charged from next month of purchase. No depreciation is charged in the month of disposal.

Low value assets costing less than NRs 10,000 each are charged as operational expenses in the year of purchase. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. In the event that an asset's carrying amount is determined to be greater than its recoverable amount it is written down immediately. The recoverable amount is the higher of the asset's fair value less costs to sell and its value in use. For the first time adoption of NFRS land properties, under the ownership and control of the bank, have been revalued to reflect the value of those properties. The excess of the carrying value and the market value is taken to the equity as revaluation reserve.

3.8. Goodwill and intangible assets

Goodwill arises on the acquisition of subsidiaries, when the aggregate of the fair value of the consideration transferred, the amount of any non- controlling interest and the fair value of any previously held equity interest in the acquiree exceed the amount of the identifiable assets and liabilities acquired. If the amount of the identifiable assets and liabilities acquired is greater, the difference is recognised immediately in the profit and loss. Goodwill is allocated to cash-generating units ('CGU's) for the purpose of impairment testing, which is undertaken at the lowest level at which goodwill is monitored for internal management purposes. Impairment testing is performed at least annually, or

whenever there is an indication of impairment, by comparing the recoverable amount of a CGU with its carrying amount. The carrying amount of a CGU is based on its assets and liabilities, including attributable goodwill. The recoverable amount of an asset is the higher of its fair value less cost to sell and its value in use. Value in use ('VIU') is the present value of the expected future CGU cash flows. If the recoverable amount is less than the carrying value, an impairment loss is charged to the income statement. Goodwill is carried on balance sheet at cost less accumulated impairment losses. At the date of disposal of a business, attributable goodwill is included in the group's share of net assets in the calculation of the gain or loss on disposal.

Intangible assets are recognised separately from goodwill when they are separable or arise from contractual or other legal rights, and their fair value can be measured reliably. These intangible assets are recognised at historical cost less impairment less amortisation over their estimated useful life.

Amortisation is made on the following basis

Asset Class	Useful life
Software	5

3.9. Investment property

Land or a building or part of a building or both owned by the bank or held by the bank as the lessee under a finance lease to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for administrative purposes; or
- sale in the ordinary course of business.

are classified as investment properties

Investment properties are measured initially at its cost. Transaction costs are included in the initial measurement.After initial recognition, the bank chooses the cost model to measure its investment properties in accordance with NAS 16.

3.10. Income Tax

Income tax comprises current tax and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case it is recognised in the same statement in which the related item appears. Current tax is the tax expected to be payable on the taxable profit for the year, calculated using tax rates enacted or substantively enacted by the reporting date, and any adjustment to tax payable in respect of previous years. Current tax assets and liabilities are offset when the group intends to settle on a net basis and the legal right to offset exists.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the balance sheet and the amounts attributed to such assets and liabilities for tax purposes. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated using the tax rates expected to apply in the periods in which the assets will be realised or the liabilities settled, based on tax rates and laws enacted, or substantively enacted, by the balance sheet date. Deferred tax assets and liabilities are offset when they arise in the same tax reporting group and relate to income taxes levied by the same taxation authority, and when the group has a legal right to offset.

Deferred tax relating to actuarial gains and losses on post-employment benefits is recognised in other comprehensive income. Deferred tax relating to share-based payment transactions is recognised directly in equity to the extent that the amount of the estimated future tax deduction exceeds the amount of the related cumulative remuneration expense. Deferred tax relating to fair value re-measurements of available-for-sale investments and cash flow hedging instruments is credited or charged directly to other comprehensive income and is subsequently recognised in the income statement when the deferred fair value gain or loss is recognised in the income statement.

3.11. Deposits, debt securities issued and subordinated liabilities

Borrowings (which include deposits from banks, customer deposits, debt securities in issue and subordinated liabilities) are recognised initially at fair value, being their issue proceeds net of transaction costs incurred. These instruments are subsequently stated at amortised cost using the effective interest method.

The bank has also issued debt securities of NPR 4 billion 8.50% coupon rate with maturity of 7 years during the reporting period. The cost incurred for the issuance of debenture is NPR 7.2 million which comes to 0.18% of the issue size. The bank has adopted policy to treat commission and other service fees/charges on the financial assets (loans and advances) and liabilities (debt securities) immaterial if it is less than 1%, thus applying EIR method would not be practical and cost effective. Therefore, the bank has shown debenture at its original amount. Had the bank applied EIR method for debenture amortization, value of debenture would have been NPR 3.99 billion against NPR 4.00 billion and effective interest cost would have been 8.53% instead of 8.50%.

3.12. Provisions

Provisions are recognised when it is probable that an outflow of economic benefits will be required to settle a current legal or constructive obligation, which has arisen as a result of past events, and for which a reliable estimate can be made. Judgement is involved in determining whether a present obligation exists and in estimating the probability, timing and amount of any outflows. Professional expert advice is taken on the assessment of litigation, property (including onerous contracts) and similar obligations wherever necessary.

3.13. Revenue recognition

Interest income

(i) Interest income are recognised under accrual basis in the profit or loss for all interest-bearing financial instruments.

(ii) The bank has recognised interest income on loans and advances as per the guidelines prescribed by Nepal Rastra Bank through NRB Circular number 1 dated 2076/04/10.

The criteria for determining when interest income recognition should be suspended as per the NRB circular are as follows:

a. Loans where there is reasonable doubt about the ultimate collectability of principal or interest;
b. Loans against which individual impairment as per NAS 39 or life time impairment as per NFRS 9 has been made;
c. Loans where contractual payments of principal and/or interest are more than 3 months in arrears and where the "net realizable value" of security is insufficient to cover payment of principal and accrued interest;
d. Loans where contractual payments of principal and/or interest are more than 12 months in arrears, irrespective of the net realizable value of collateral;
e. Overdrafts and other short term facilities which have not been settled after the expiry of the loan and even not renewed within 3 months of the expiry, and where the net realizable value of security is insufficient to cover payment of principal and accrued interest;
f. Overdrafts and other short term facilities which have not been settled after the expiry of the loan and even not renewed within 12 months of the expiry, irrespective of the net realizable value of collateral;.

Notwithstanding anything contained in this paragraph, the suspended interest shall be recognized as income in profit or loss when the interest is receipt by the bank.

Bank shall accrue the interest on loan although it has been decided to suspend the recognition of income. However, bank shall cease to accrue interest on loan, in case where contractual payments of principal and/or interest of the loan are due for more than 12 months and the "net realizable value" of security is insufficient to cover payment of principal and accrued interest. Cessation of accrual of interest for accounting purpose shall not preclude the bank to continue to accrue interest on a memorandum basis for legal enforcement purposes unless the loan is written off.

NFRS Requirement

NFRS requires interest income to be recognised using the effective interest method, except for those classified at fair value through profit or loss. The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating the interest income over the expected life of the financial instrument. The effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability. The effective interest rate is calculated on initial recognition of the financial asset or liability by estimating the future cash flows after considering all the contractual terms of the instrument but not future credit losses. The calculation includes all amounts expected to be paid or received by the Bank including expected early redemption fees and related penalties and premiums and discounts that are an integral part of the overall return. Direct incremental transaction costs related to the acquisition, issue or disposal of financial instruments is also taken into account in the calculation. Once financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Since the commission and other service fees that the bank charges on the loans and advances are less than 1% and hence considered insignificant, applying EIR method would not be practical and cost effective. Hence, initial service fees and renewal charges have been recognised during the period when such income accrue rather than being included within the component of interest income under EIR method.

Total accrued interest income accounted as per Interest income recognition guidelines issued by NRB is NPR 1,065.91 million out of which NPR 142.86 million, realized till Bhadra 12th 2078 has been factored in computation of Regulatory Reserve as per section 3 of NRB directive number 4.

Fees and Commission Income – Fees and commissions, which are not an integral part of the effective interest rate are generally recognised when the service has been provided. Fee income is earned from a diverse range of services provided by the group to its customers. Loan commitment fees for loans that are likely to be drawn down are deferred (together with related direct costs) and recognised as an adjustment to the effective interest rate on the loan once drawn. Where it is unlikely that loan commitments will be drawn, loan commitment fees are recognised over the life of the facility. Loan syndication fees are recognised as revenue when the syndication has been completed and the Bank retains no part of the loan package for itself or retains a part at the same effective interest rate for all interest-bearing financial instruments, including loans and advances, as for the other participants.

Dividend Income: Dividend income is recognised when the right to receive payment is established. This is the ex-dividend date for listed equity securities, and usually the date when shareholders approve the dividend for unlisted equity securities.

Net trading income comprises all gains and losses from changes in the fair value of financial assets and financial liabilities held for trading, together with the related interest income, expense and dividends.

Net income from financial instruments designated at fair value includes all

- gains and losses from changes in the fair value of financial assets and liabilities designated at fair value through profit or loss, including liabilities under investment contracts;
- gains and losses from changes in the fair value of derivatives that are managed in conjunction with financial assets or liabilities designated at fair value through profit or loss; and
- interest income, interest expense and dividend income in respect of
  - financial assets and liabilities designated at fair value through profit or loss; and
  - derivatives managed in conjunction with the above,
  - except for interest arising from the group's issued debt securities and derivatives managed in conjunction with those debt securities, which is included in 'Interest expense'.

3.14. Interest expense

Under NFRS Interest expense are recognised in the profit or loss for all interest-bearing financial instruments using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating the interest expense over the expected life of the financial instrument.

3.15. Employee benefits

3.15.1.Current employee benefits costs

Short-term employee benefits, such as salaries, paid absences, performance-based cash rewards and social security costs are recognised over the period in which the employees provide the related services.

3.15.2. Post-employment benefits

The bank operates a number of post-employment benefit plans. These plans include both defined benefit and defined contribution plans.

Defined contribution plan

Payments to defined contribution plans where the bank's obligations are equivalent to a contribution to the defined contribution plan. These are charged as an expense as the employees render service. The bank operates provident fund scheme under Defined contribution plan. A percentage of basic pay is paid on monthly basis to the plan. The bank has no further obligation to pay after such contribution even if the plan assets may not be sufficient to pay out to the employees. The plan is managed by a separately registered retirement benefit plan managed by the employees of the bank. Any further income on such fund belongs to the employees.

Defined benefit plan

The defined benefit plan includes gratuity and accumulated leave compensation payment at the time of retirement. The present value of defined benefit obligations are calculated at the reporting date by the actuaries. The net charge to the profit and loss comprises the service costs and the net interest on the net defined benefit liability and is presented under staff cost.

The past service cost, which is charged immediately to the income statement, is the change in the present value of the defined benefit obligation for employee service in prior periods resulting from a plan amendment (the introduction or withdrawal of, or changes to, a defined benefit plan) or curtailment (a significant reduction by the entity in the number of employees covered by a plan). A settlement is a transaction that eliminates all further legal and constructive obligations for part or all of the benefits provided under a defined benefit plan, other than a payment of benefits to, or on behalf of, employees that is set out in the terms of the plan and included in the actuarial assumptions.

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income. Actuarial gains and losses comprise experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred), as well as the effects of changes in actuarial assumptions.

The defined benefit asset or liability represents the present value of defined benefit obligations reduced by the fair value of plan assets. Any net defined benefit surplus is limited to the present value of available refunds and reductions in future contributions to the plan.

Sick Leave and Accumulative Leave

Sick Leave and accumulated leave has been defined as long term employee benefit. Expense relating to leave benefits, including actuarial gain or loss are charged to profit and loss.

Staff Loans:

The bank provides under listed types of loans to its staffs at the rates mentioned below as per the provisions of employees' bylaws of the bank. The staff loans are shown at fair value in the financial statements considering the base rate of the bank. The subsidized interest is shown as expense in the staff costs in the income statement.

Land loan:	5%
Social loan:	5%
Vehicle loan:	4%
Housing loan:	tied up with insurance policy
Solar loan:	8%

3.16. Leases

Agreements which transfer substantially all the risks and rewards incidental to the ownership of assets are classified as finance leases. As a lessor under finance leases, the group presents the amounts due under the leases, after deduction of unearned charges, in 'Loans and advances to banks' or 'Loans and advances to customers'. As a lessee under finance leases, the group presents the leased assets in 'Property and equipment' and the corresponding liability to the lessor is included in 'Other liabilities'. A finance lease and its corresponding liability are recognised initially at the fair value of the asset or, if lower, the present value of the minimum lease payments.

All other leases are classified as operating leases. As a lessor, the group presents assets subject to operating leases in 'Property and equipment'. Impairment losses are recognised to the extent that the carrying values are not fully recoverable. As a lessee, leased assets are not recognised on the balance sheet. The finance income or charges on finance leases are recognised in 'Net interest income' over the lease periods so as to give a constant rate of return.

The leases entered into by the Bank are primarily operating leases. Operating lease rentals payable are charged to the profit and loss on a straight-line basis over the period of the lease. When an operating lease is terminated before the end of the lease period, any payment made to the lessor by way of penalty is recognised as an expense in the period of termination.

3.17. Foreign currency translation

Transactions in foreign currencies are recorded in the functional currency at rate of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the buying rate of exchange at the balance sheet date. Any resulting exchange differences are included in the profit or loss. Non-monetary assets and liabilities that are measured at historical cost in a foreign currency are translated into the functional currency using the rate of exchange at the date of the initial transaction. Non-monetary assets and liabilities measured at fair value in a foreign currency are translated into the functional currency using the rate of exchange at the date the fair value was determined.

3.18. Financial Guarantee and loan commitments

Financial guarantees, which are not classified as insurance contracts, are the contingent liabilities, which include certain guarantees and letters of credit pledged as collateral security as well as contingent liabilities related to legal proceedings or regulatory matters are possible obligations that arise from past events whose existence will be confirmed only by the occurrence, or non-occurrence, of one or more uncertain future events not wholly within the control of the group; or are present obligations that have arisen from past events but are not recognised because it is not probable that settlement will require the outflow of economic benefits, or because the amount of the obligations cannot be reliably measured. Contingent liabilities are not recognised in the financial statements but are disclosed unless the probability of settlement is remote.

Loan Commitments

These include the amount of loans approved by the bank but are not yet disbursed / utilised. These include for example overdraft / crash credit limits given to the customers in excess of already utilised balances where customers can draw down credit facilities, within the limit, without going through any further approval process of the bank.

3.19. Share capital and reserves

Financial instruments issued are classified as equity when there is no contractual obligation to transfer cash, other financial assets or issue a variable number of own equity instruments. Incremental costs directly attributable to the issue of equity instruments are shown in equity as a deduction from the proceeds.

Reserves

- Share Premium: Any premium collected on issue of shares to the public is credited to this reserve. This reserve is utilised only for issue of the bonus share capital.
- Retained Earnings: Earning made during the current and previous years not distributed has been credited to this reserve.
- General Reserve: There is a regulatory requirement under Bank and Financial Institutions Act to set aside 20% of the net profit after tax every year as general reserve to build up the capital until the general reserve fund balance is twice the paid up share capital. This is the restricted reserve and cannot be freely used. The Bank appropriates 20% of the regulatory net profit every year and transfers to the general reserve fund.
- Exchange equalization reserve: Central bank's regulatory directives require banks to transfer 25% of the revaluation gain as at the year end to this reserve account. Thus, 25% of such gains are transferred to the exchange equalization reserve.
- Assets Revaluation Reserve: Bank has revalued its land properties as on the date of transition to NFRS. The upward movement in the value of the land is adjusted by creating an equivalent amount of revaluation reserve. Bank periodically reviews the fair value of freehold land, as entire class of the assets, and makes changes in the recognised value. Professional valuations are used to assess the fair value changes.
- Fair value Reserve: Net change in fair value of equity instruments that are measured at fair value and the changes in fair value is presented under this reserve.

- Debenture Redemption Reserve: The Bank sets aside a portion of its profit to create a reserve for repayment of debenture liabilities when they mature. On maturity and settlement of the debentures there reserves will be available as free reserve.
- Other reserves
  - o CSR Reserve: Bank has regulatory requirement to set aside 1% of the net profit of previous year for corporate social responsibility activities. The amount spent in the year is written back from the reserve to retained earnings.
  - o Staff Training Reserve: Bank has regulatory requirement to set aside the shortfall between amount spent for training and amount calculated at 3% of the previous year's staff cost. Such shortfall amount if any is set aside in the reserves. In case where the amount spent exceeds 3%, the excess is written back from the reserve.
- Investment Adjustment reserve: 100% reserve is created on investments in equity instruments that are not listed and are not exempted by NRB.
- Regulatory reserves: Includes
  - o Accrued Interest Receivable Reserve
  - o Bargain Purchase Gain Reserve to the extent not available or not proposed for distribution
  - o Non-banking Asset Reserve
  - o Actuarial Loss Reserve and
  - o Other reserves as prescribed by NRB

3.20. Earning per share including diluted

Basic earnings per share are calculated by dividing the net profit attributable to equity shareholders by the weighted average number of ordinary shares in issue during the year. For the calculation of diluted earnings per share the weighted average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares that arise in respect of convertible instruments, if any.

3.21. Segment reporting

The bank's business segments are basically identified as banking operations, treasury functions, trade finance business, remittance business and card operations. Measurement of segmental assets, liabilities, income and expenses is in accordance with the bank's accounting policies. Branch networks are under regional demarcation for supervision, monitoring and control. The bank does not have transfer pricing adjustments between its segments and branches /units for allocating costs and revenues. After the restructuring of Nepal under federal constitution, the bank is considering realigning its management under provincial lines.

Bank's established departmental operation also allows the management to monitor the bank's business under the product /service lines. However the costs and revenues are not passed on between the intra-product & service lines.

Bank applies following principles for reporting operating segments

- An operating segment is a component of the bank (geographical or product/service line):
- That engages in business activities from which it may earn revenues and incur expenses
- Whose operating results are regularly reviewed by the Banks's seniors management team which is also the chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance
- For which discrete financial information is available.

3.22. Investment in associates and joint ventures

Investments in which the bank, together with one or more parties, has joint control of an arrangement set up to undertake an economic activity are classified as joint ventures. The group classifies investments in entities over which it has significant influence, and that are neither subsidiaries nor joint ventures, as associates. Investments in associates are recognised using the equity method for reporting under the NIBL Group. Under this method, such investments are initially stated at cost, including attributable goodwill, and are adjusted thereafter for the post-acquisition change in the group's share of net assets. Goodwill arises on the acquisition of interests in joint ventures and associates when the cost of investment exceeds the group's share of the net fair value of the associates or joint venture's identifiable assets and liabilities.

An investment in an associate is tested for impairment when there is an indication that the investment may be impaired. Goodwill on acquisitions of interests in joint ventures and associates is not tested separately for impairment.

Profits on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in the respective associates or joint ventures. Losses are also eliminated to the extent of the group's interest in the associates or joint ventures unless the transaction provides evidence of an impairment of the asset transferred.

For standalone financial statement of the bank the investments in associates have been carried at cost.

(i) Qualitative disclosures

The bank manages and maintains its capital considering the business and associated risks. The regulator also has set the minimum capital requirements, under Basel III norms, which the bank has been complying duly. In addition bank has implemented Internal Capital Adequacy Assessment Policy (ICAAP) that assesses capital requirements in accordance with the bank's strategy and the market conditions.The purpose of Nepal Investment Bank Ltd. Capital management practice is to ensure that NIBL has sufficient capital at all times to cover the risks associated with the bank's business.Further, NIBL has clearly defined its risk appetite and has set its risk tolerance limit. Periodic review of these limits are conducted and if required necessary corrective action plans are formulated on timely manner.

ICAAP is understood as bank's internal assessment of capital that it considers adequate to cover all material risks to which it is exposed. The objective is to determine the economic capital required to cover all risks faced. A sound risk management framework, which includes Board oversight, risk assessment, monitoring and reporting processes, and regular independent review of all activities carried out by the risk function, is the major building block of an ICAAP.

ICAAP document is reviewed annually based on the strategy of the Bank within first quarter covering the capital assessment and projection for the next year, to enable collation and presentation of comprehensive ICAAP to the Board.

The ICAAP document contains a comprehensive assessment of identified risks and estimates Bank's capital requirement, as applicable, on account of those risks. It also details controls, monitoring and reporting measures for various risks and hence is a valuable source for effective risk management.

The following measures are being taken to ensure use of the ICAAP within the Bank:

- The Bank has adopted a conservative approach for evaluating the capital buffer based on the ICAAP.
- Regular interactions are held with key departments of the Bank during the course of the ICAAP exercise to sensitize them to various risks and management of risks.
- Copies of ICAAP documents are sent to functional head of the various departments to ensure dissemination of information contained in the document among the operating functionaries.
- Other measures include – improving risk management practices, inculcating risk awareness/culture amongst the operating functionaries by suitable training programs, constant monitoring, stress testing of portfolios.

The ICAAP review committee reviews ICAAP annually and adequacy of capital under various stress conditions and scenarios. ICAAP review committee meets at quarterly intervals and any key findings is appraised to BOD through risk management committee.

NIBL Board is responsible for setting the risk appetite and risk tolerance limit. NIBL has a separate independent Risk Management Department (RMD), Internal Audit Department and Risk Management Committee chaired by a director to monitor and assess risk appetite and risk tolerance.

The ICAAP guidelines ensure that the Senior Management:

- Establishes detailed set of policies that place effective controls on the Bank's activities ensuring consistency with its risks appetite.
- Effectively communicates these policies.
- Recognizes the severity of the risks and its impact on operational activities.
- Assessing the various risks.
- Develops a system to relate risk to the capital level.
- Establishes strong internal control mechanisms and a method for monitoring compliance with internal policies.

Stress Testing

Stress test scenarios have been developed for credit risk, market risk, operational risk, and other risks. Individual scenarios for the aforesaid risks are detailed in respective risk reviews. Bank analyzes the result of Stress Testing and systematically assesses its impact on the financial position, profitability, liquidity and bank's available capital on a periodic basis and adopts necessary strategies.

Risk Management Process

Nepal Investment Bank has tailored its risk management program to its needs and circumstances. Regardless of the risk management program design, each program should cover:

Risk identification

In order to properly manage risks, an institution must recognize and understand risks that may arise from both existing and new business initiatives; for example, risks inherent in lending activity include credit, liquidity, interest rate and operational risks. Risk identification should be a continuing process, and should be understood at both the transaction and portfolio levels.

Risk Measurement

Once risks have been identified, they should be measured in order to determine their impact on the banking institution's profitability and capital. This can be done using various simple models. Accurate and timely measurement of risk is essential to effective risk management systems. An institution that does not have a risk measurement system has limited ability to control or monitor risk levels. Banking institutions should periodically test their risk measurement tools to make sure they are accurate. Good risk measurement systems assess the risks of both individual transactions and portfolios.

Risk Monitoring

Institutions should put in place an effective management information system (MIS) to monitor risk levels and facilitate timely review of risk positions and exceptions. Monitoring reports should be frequent, timely, accurate, and informative and should be distributed to appropriate individuals to ensure action, when needed.

Risk Control

After measuring risk, an institution should establish and communicate risk limits through policies, standards, and procedures that define responsibility and authority. These limits should serve as a means to control exposure to various risks associated with the banking institution's activities. Institutions may also apply various mitigating tools in minimizing exposure to various risks. Institutions should have a process to authorize and document Exceptions or changes to risk limits when warranted.

A sound risk management system should have the following elements:

- Active board and senior management oversight; (BMO)
- Adequate policies, procedures and limits; (PPL
- Adequate risk measurement, monitoring and management information system (MIS); and Comprehensive internal controls. (ICs)

Active Board and Senior Management Oversight

Boards of directors have ultimate responsibility for the level of risk taken by Nepal Investment Bank Limited. Accordingly, they should approve the overall business strategies and significant policies of NIBL, including those related to managing and taking risks, and should also ensure that senior management is fully capable of managing the activities that NIBL undertake. While all boards of directors are responsible for understanding the nature of the risks significant to NIBL and for ensuring that management is taking the steps necessary to identify, measure, monitor, and control these risks.

Senior management is responsible for implementing strategies in a manner that limits risks associated with each strategy and that ensures compliance with laws and regulations on both a long-term and day-to-day basis. Accordingly, management should be fully involved in the activities of NIBL and possess sufficient knowledge of all major business lines to ensure that appropriate policies, controls, and risk monitoring systems are in place and that accountability and lines of authority are clearly delineated. Senior management is also responsible for establishing and communicating a strong awareness of and need for effective internal controls and high ethical standards.

Strategies and Processes

Credit risk process is a joint effort between its marketing and credit areas. Relationship managers and account officers on one hand, and the credit officers on the other are engaged in analyzing inherent risks in the customer's business, ability to repay and structure a facility that simultaneously accommodates the financing needs, while assuring seniority, protection and control of the Bank's assets and collateral.

The Structure and Organization of the Relevant Risk Management Function

The Board of Directors (BOD) is the ultimate authority in the decision making process. The process, however, is initiated at the business unit officers / business unit heads / ALCO level, Risk Management department and goes through the Chief Executive Officer, Risk management committee and the BOD. The risk management stops at different levels depending on the Bank's policy relating to approval discretions. Further policy manuals on credit, asset liability, information technology & operations are also available to guide the staff on day to day business.

The Scope and Nature of Risk Reporting and / or Measurement Systems

Risk reporting / measurement system is done through regular customer interactions, site inspections & annual reviews. These are continuous processes. Further, quarterly review of the bank's performance is conducted every quarter and findings reported to the BOD.

Policies for Hedging and / or mitigating risk and Strategies, and processes for monitoring the continuing effectiveness of hedges / mitigants

Policies for mitigating risks & strategies are as outlined in the respective manuals and as discussed at various levels after customer interactions / visits, during annual reviews, quarterly reviews and at meetings at various levels.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NIBL ACE CAPITAL LIMITED

Opinion on the Financial Statements

We have audited the accompanying financial statements of NIBL Ace Capital Limited ("the Company") which comprise the statement of financial position (Balance Sheet) as at Ashadh 31, 2078 corresponding to July 15, 2021, the statement of Profit or Loss, the statement of other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of Ashadh 31, 2078 (July 15, 2021), and its performances, changes in equity and its cash flows for the year ended on that date in conformity with Nepal Financial Reporting Standards (NFRS)

Basis of Opinion

We conducted our audit in accordance with Nepal Standards on Auditing (NSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirement that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibility of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the Nepal Financial Reporting Standards (NFRS), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an

NIBL ACE CAPITAL

audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with NSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
